Purper Cress (BIO) has the flavour of cabbage, and its beautiful deep red colour makes it a great visual addition to a dish too

TASTE

Purper Cress has the flavour of cabbage, and its beautiful deep red colour makes it a great visual addition to a dish too.

TASTE FRIENDS

The cress adds a fresh, spicy taste to fatty dishes such as steak tartare or tuna. Purper Cress has a wide range of uses, and it's particularly good in cold dishes.

ORIGIN

Purper Cress is the dark purple version of our Daikon Cress®. In the last 10 years, we have carefully developed this variety under own supervision*. The unique red/purple colour is caused by increased Anthocyanin levels, a very healthy product, Up to 100% more than in normal radish.

AVAILABILITY

Purper Cress is available year round and can easily be stored for up to seven days at a temperature of 2-7°C. Produced in a socially responsible culture, Purper Cress meets the hygienic kitchen standards.
